WHAT TYPE

TABLE-SELECTION GAME

Select one correct answer for each of the questions in the test and press the Finish button at the end. The answers will be validated automatically.

For each task, select the type of mean you would use to solve it.

Note: AP – arithmetic (resp. weighted arithmetic) mean, GP – geometric (resp. weighted geometric) mean, HP – harmonic (resp. weighted harmonic) mean.

		AP	GP	HP
1.	A car was going from the town A to the town B at an average speed of 90 km/h, on the way back it was going at an average speed of 70 km/h. What was the average speed of the car on the way there and back? Result: 78.75 km/h	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
